

PE SUPPORT

Autumn 2 2018

This half term I have been teaching Year 3/4 hockey. The children have been introduced to the brand new sticks and shown the correct way to hold the stick and only using the flat side. This has proved quite a challenge for some but with real perseverance, the progress has been great. The children have really enjoyed the small sided games, showing great determination to keep the ball away from the opposition. We have also brought some literacy and numeracy skills into PE lessons with the 'alphabet' and 'numbers' games as warm up activities.

‘My best thing was when we were playing against the opposition.’ Kian

‘I enjoyed passing the ball to my team mates.’ Matvejs

‘What was really good was that you had to dribble it and when you had to score into the goal.’ Daisy

'I enjoyed hockey. It was playing games and tackling and trying to beat other teams.' Grace

Netball club has also been going very well this half term, with 10 children regularly taking part. They have learnt the basic rules of 'High 5' netball, the different positions and the importance of marking an opponent. With brand new netball posts, their shooting skills have really progressed. The weather for the last session was very poor so we watched some international netball in the school hall before trying to replicate this standard themselves!
