

Synchronized Street Dance Sessions

The children at Bedenham were given the opportunity to take part in a golden treat with Synchronized Hip Hop School. The children were given a session with Chris the dance teacher, who taught each class a different dance routine. They had to add bounce to their movements and show attitude to ensure the routines suited the style of the dance.

The children really enjoyed their routines - all showed amazing technique and followed some difficult choreography to create a class dance. We hope to work more with Synchronized Dance School in future to develop dance further in Bedenham and give the children further opportunities to express themselves.
